

# SF224/ SF235

Offered with a 22hp or 32.5hp engine and a choice of cutting decks measuring 1370mm or 1570mm wide, these high performance out-front rotary mower-collectors are designed to facilitate grass cutting in the most difficult areas.

Height of cut can easily be adjusted from 25-120mm without the use of tools, using the single height adjustment lever.

An impressive 950 litre, turbine driven, high-tip collector boosts efficiency when collecting grass. Its clearance height of 2125mm provides superior access when depositing the cut grass into waste skips, collector trucks or bins.

Routine servicing and maintenance is refreshingly easy with excellent access to the engine, radiator and service points.

## KEY FEATURES

Power: 16.1kW (22hp) or 24.2kW (32.5hp)

Drive System: Hydrostatic

Special Features: High performing collection mower with 950ltr turbine driven high tip collector, with clearance over 2.1m

	SF235	SF224	
<b>Power</b>	Engine: Type	E3CD	E3112
	Displacement	1498cc	1123cc
	Power	24.2kW (32.5hp)	16.1kW (22hp)
	Fuel capacity	40ltr	40ltr
