

CS-620SX Chainsaw

Double Spike
(Standard)

Professional
Quality "SUGIHARA"
Guide Bar

ECHO's CS-620SX features a premium-grade, 59.8cc engine with an output of 3.32kW – its predecessor, the CS-610, had the same size engine but an output of only 3.00kW. As a result, the CS-620SX now has the cutting performance of higher capacity machines, but weighs considerably less.

The standard guide bar length is 50cm (20"), with a 45cm (18") option available. Semi-automatic de-compression makes the CS-620SX easy to start. Its professional grade cutter bar is double spiked as standard. The dual post chain brake gives increased durability, while side access tensioning enables easy chain adjustment.

High Power & Excellent Cutting Performance

	CS-600	CS-610	CS-620SX
Engine displacement	59.8cc	59.8cc	59.8cc
Output	3.00kW	3.00kW	3.32kW

SPECIFICATIONS

Displacement	59.8cc
Dry weight*	6.2kg
Output	3.32kW
Guide bar length	Standard: 50cm (20") Option: 45cm (18")
Fuel tank capacity	0.645 litres

* without guide bar and chain

CS-620SX PROFILE

Local authority

FEATURES

BENEFITS

Premium grade ECHO engine

Reduced wear means increased durability and extended engine life

Dual-post chain brake handle

For increased durability

Automatic oiler

Delivers optimum lubrication

Side access tensioning

Allows easy chain adjustment

G-Force engine air pre-cleaner

For reduced air filter maintenance

Semi-automatic decompression

Reduced effort required to start

Air filter system

Top-mounted filter is positioned away from dirt and debris for better filtration

Digital C.D.I.

Gives smooth, quick acceleration and stable idle

Stage 2 low emissions compliant

Reduced exhaust emissions

*Use ECHO products with ECHO's own high quality blend oils,
for maximum performance*

Extensive warranty

ECHO power tools come with a **five year domestic warranty** or a **two year warranty** in professional use. For the domestic user there is the total reassurance of using equipment designed and built for professionals, and a five year warranty offers even greater peace of mind (registration of ECHO products and servicing are necessary to validate the warranty).
