

SRM-520ES Brushcutter

ES Easy Start ensures almost effortless starting

Stage 2 emissions compliant

Newly designed throttle control and handle grips fit securely in the user's hands

The ERGO-PRO harness is not only padded and easily adjustable, but also has a quick release facility

Built for professionals, the ECHO SRM-520ES brushcutter has a powerful 50.2cc engine but weighs just 9.0kg*. It has a number of features that enhance operator comfort and general ease of use.

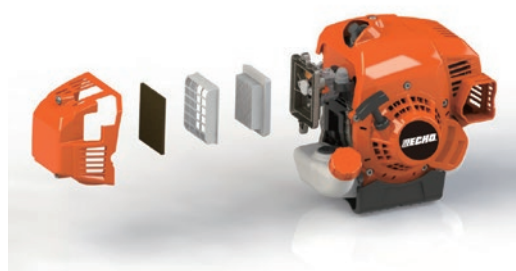

The anti-vibration system includes plastic casing and rubber cushions inside. These are soft enough to reduce vibration but do not result in poor manoeuvrability.

The heavy-duty, two-stage air filter provides greater durability and filtration than a standard filter.

The anti-vibration system includes a 4-point mounting system that significantly reduces vibration

The cooling air intake is at the rear of the machine. This reduces the amount of debris being sucked in and as a result the time required for daily maintenance. Additionally, the process works more effectively to cool the engine

Professional two-stage air filter system provides enhanced durability

SPECIFICATIONS

Displacement	50.2cc
Dry weight*	9.0kg
Output	2.16kW
Fuel tank capacity	0.79 litres
Start assist system	Easy Start

* Without cutting attachment and shield

SRM-520ES PROFILE

▶ CATEGORY

Brushcutter

▶ APPLICATION

Long grass, weeds, brush

▶ TARGET CUSTOMER

Homeowner

Prosumer

Commercial operator

Local authority

FEATURES

BENEFITS

Heavy-duty, two-stage air filter

✓ More durable and improved filtration over standard air filter

Anti-vibration system

✓ Comfortable to operate for extended periods
 ✓ An attractive product for local authorities and large contractors

ES Easy Start system

✓ Minimum effort required to start the machine
 ✓ Faster starting

'Tap and Go' system

✓ Releases more line for the operator with a single tap

Heavy duty engine

✓ Reduced wear means increased durability and extended engine life

Stage 2 low emissions compliant

✓ Reduced exhaust emissions

Quick hook-up/release harness

✓ Speeds up the work process and allows operators to detach themselves from the machine quickly should the need arise

Air intake at rear of machine

✓ Daily maintenance reduced as less debris sucked in
 ✓ Effective engine cooling method

Extensive warranty

ECHO power tools come with a **two year warranty** in professional use (registration of ECHO products and servicing are necessary to validate the warranty).

Use ECHO products with ECHO's own high quality blend oils, for maximum performance
