

SF224

Offered with a 22.5hp engine this high performance, manoeuvrable out-front mower is designed to facilitate grass cutting in the most difficult areas.

Rotary or flail decks may be fitted to the power unit for to suit multiple applications and cutting cycles.

A large tool storage box is standard which will store all the items you need when out mowing large areas.

Hydrostatic transmission with automatic or selectable 4WD.

Routine servicing and maintenance is refreshingly easy with excellent access to the engine and service points due to the tipping storage box. The radiator has an automatic reversible fan.

KEY FEATURES
